

# How to Measure

*Weathering Storms with  
you since 1947!*

# DoorTech

### Standard Sizes

32" x 80"

36" x 80"

### Custom Size

Up to 60" wide & 120" tall

All measurements are taken from the outside and should be the door frame opening.

- Take three measurements on width (A): top, center, and bottom. Use smallest figure.
- Measure height (B) from top of opening to sill. Measure both sides and use smallest figure.

When ordering pre-hung doors, face the door from the outside and specify whether hinges are left-hand or right-hand.
